

2023 MINISTRY UPDATE

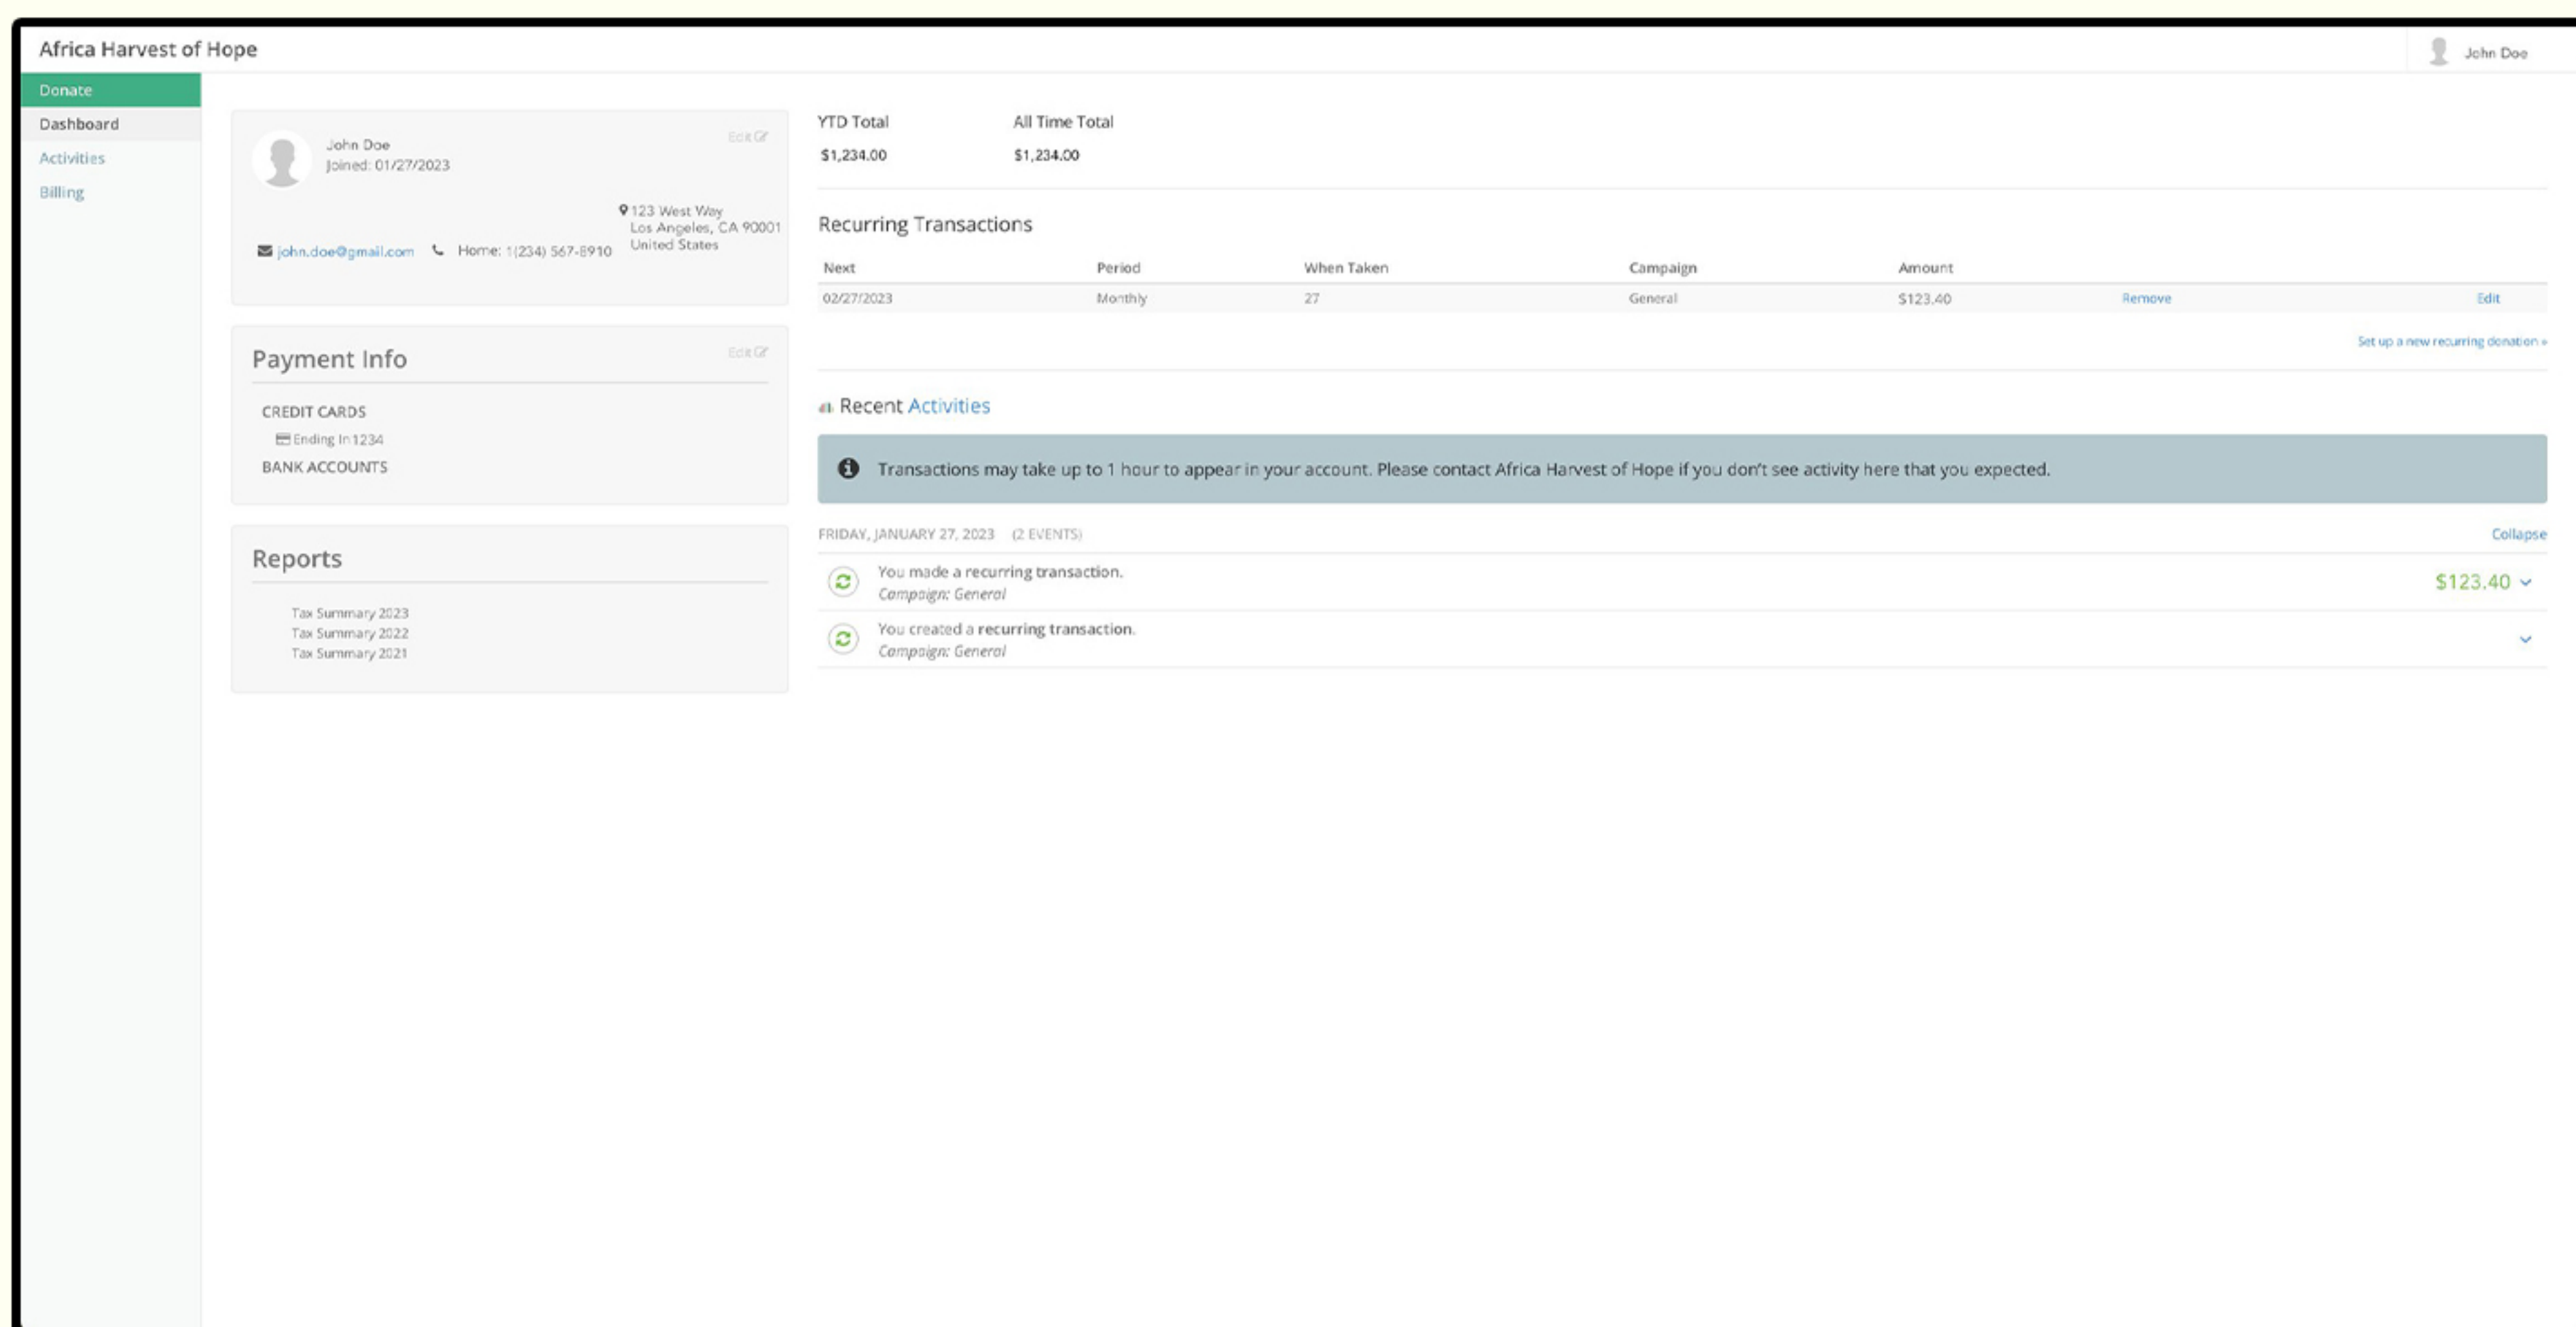

ISSUE NO.1 // FEBRUARY 2023

Welcome the new website!

Allow me to introduce myself, my name is Timothy and I am AHOH's Digital Content Manager. You will be hearing mostly from me with updates going on over at Africa Harvest of Hope.

Here is what's going on so far in 2023!

Website

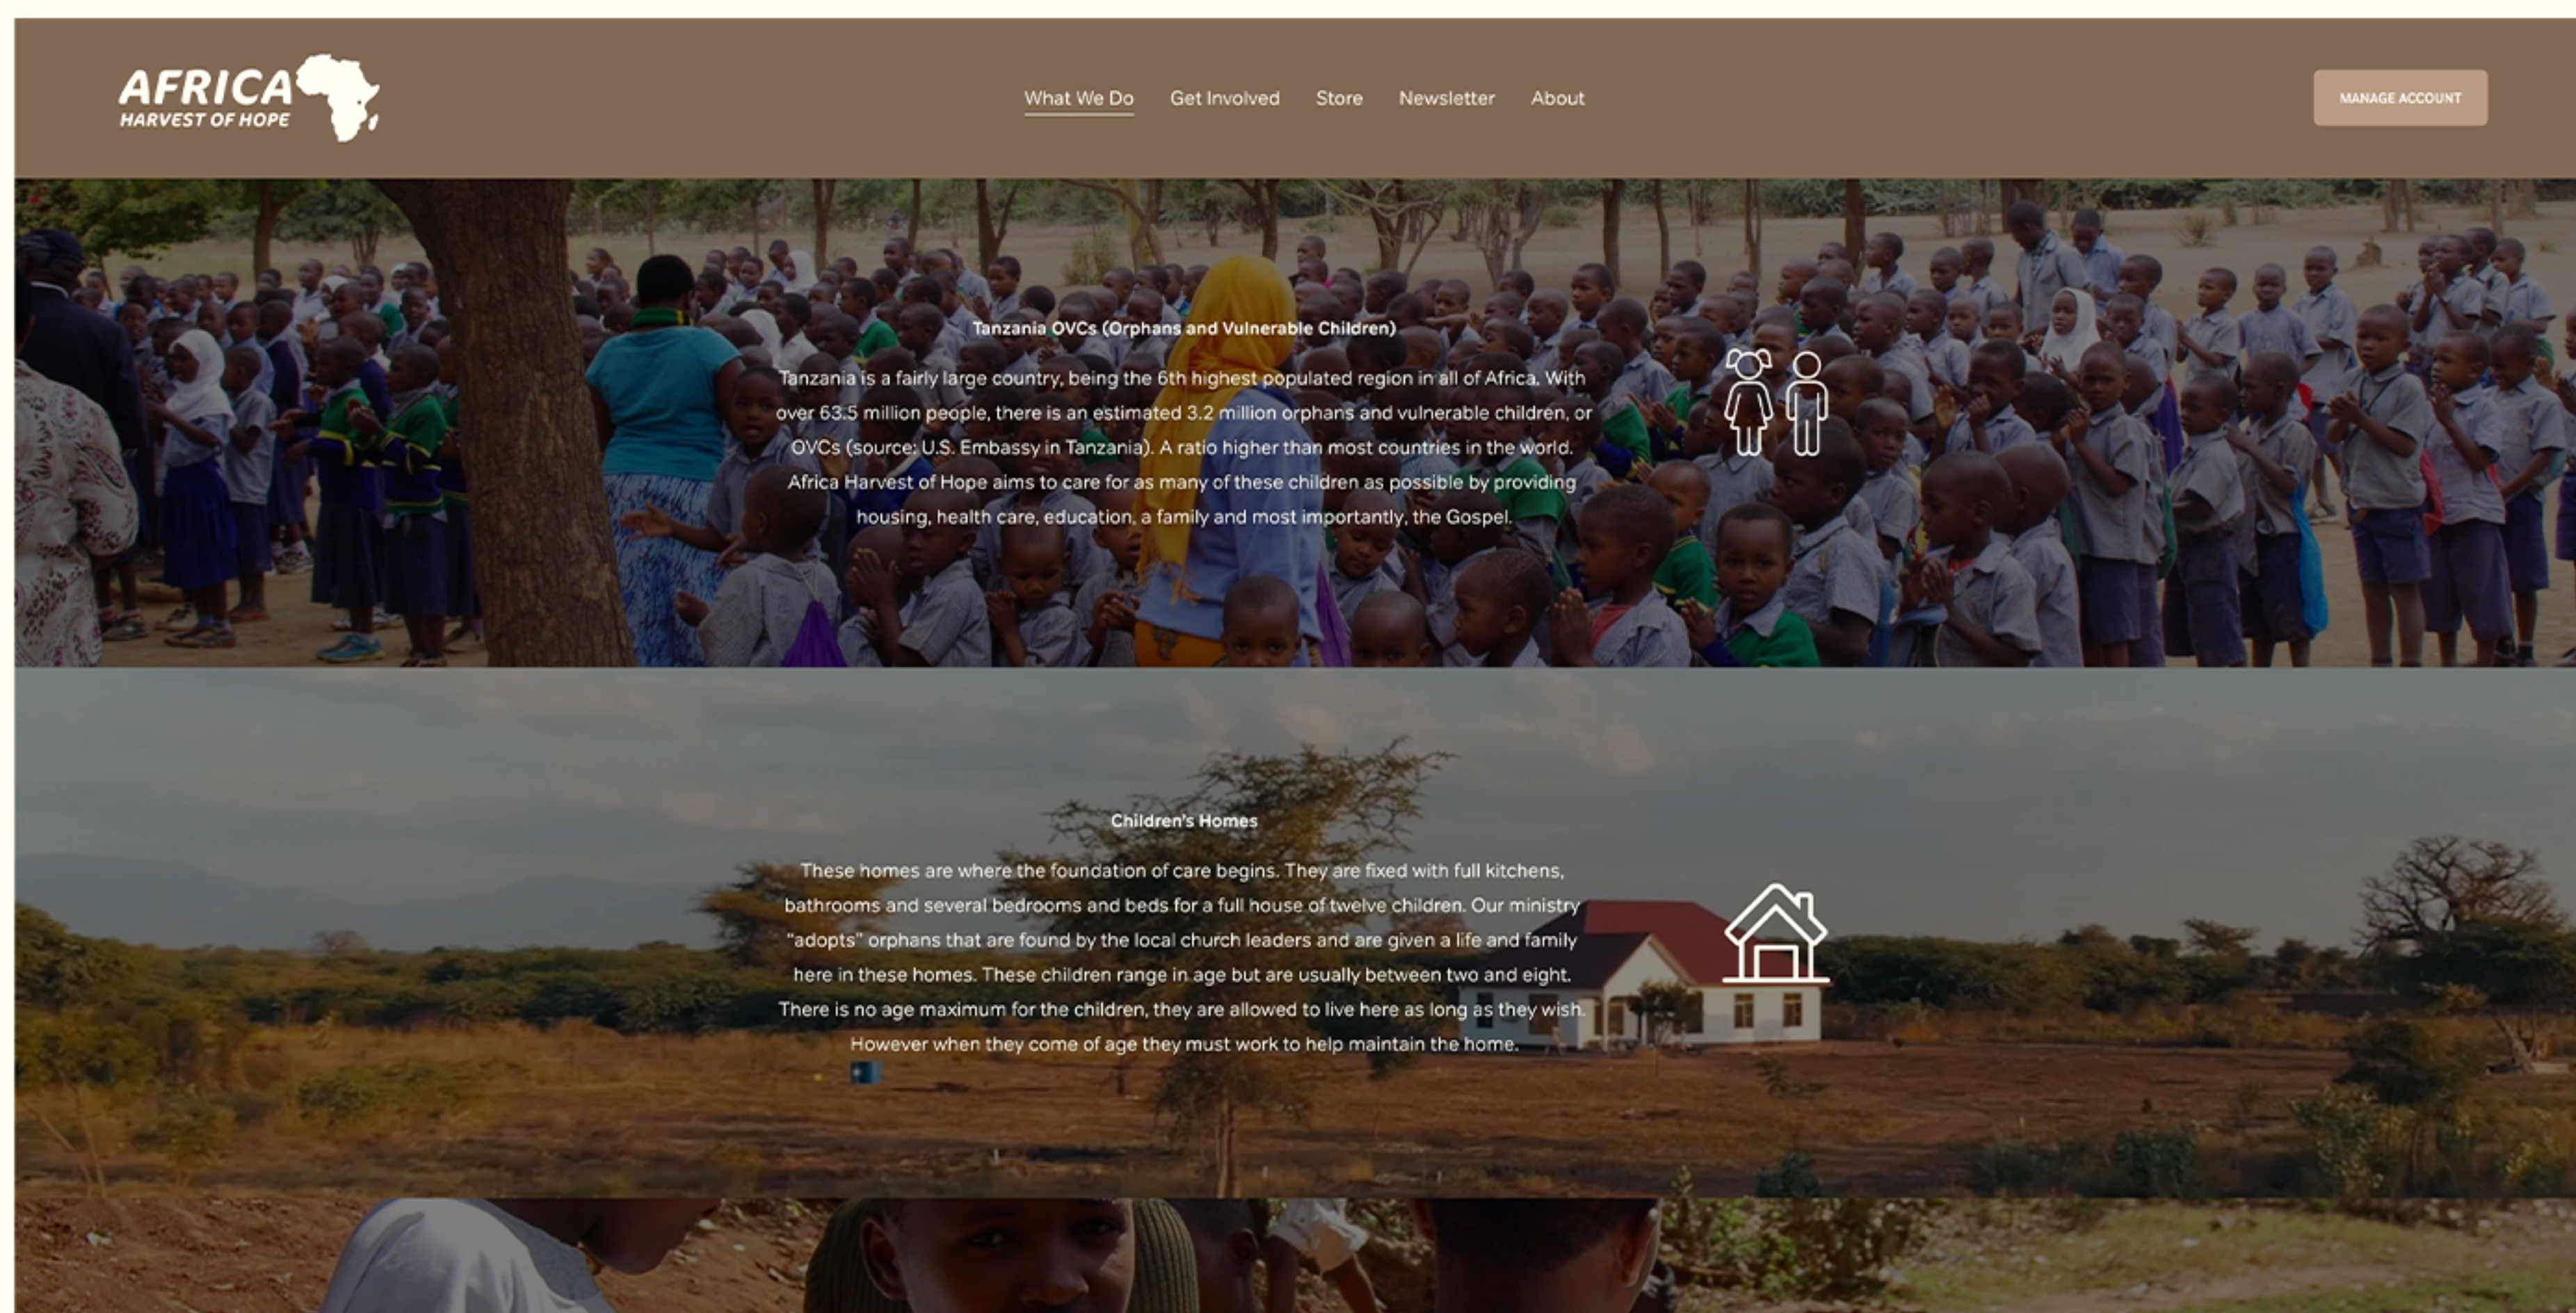

Managing Your Donation Account

We made it incredibly easy for you as a donor (or future donor) to use the website for your benefit. You may have noticed right away that there is a button at the top of the website that says, "MANAGE ACCOUNT". If you are a recurring donor or child sponsor, you will be using this button frequently. When you click on it, it will redirect you to the portal login for your donation account, powered by Kindful. Here, you can view your current recurring donation and the tools to be able to manage it. If you wish to edit your current recurring donation, find the section, "Recurring Transactions" and look all the way to the right and click "Edit". The window will drop down and now you will have the options to change the Recurring Period, Next Recurrence Date, or Donation Amount. Keep in mind, when you first commit to a recurring donation, it will automatically be set to charge you every month, on the date that you had signed up.

Just below the "Edit" button, you will see "Set up a new recurring donation >>". Here you can make a one-time donation, start a new recurring donation, or start a Child Sponsorship. This can also be accomplished by clicking the "Donate" button in the upper left hand corner of the web page.

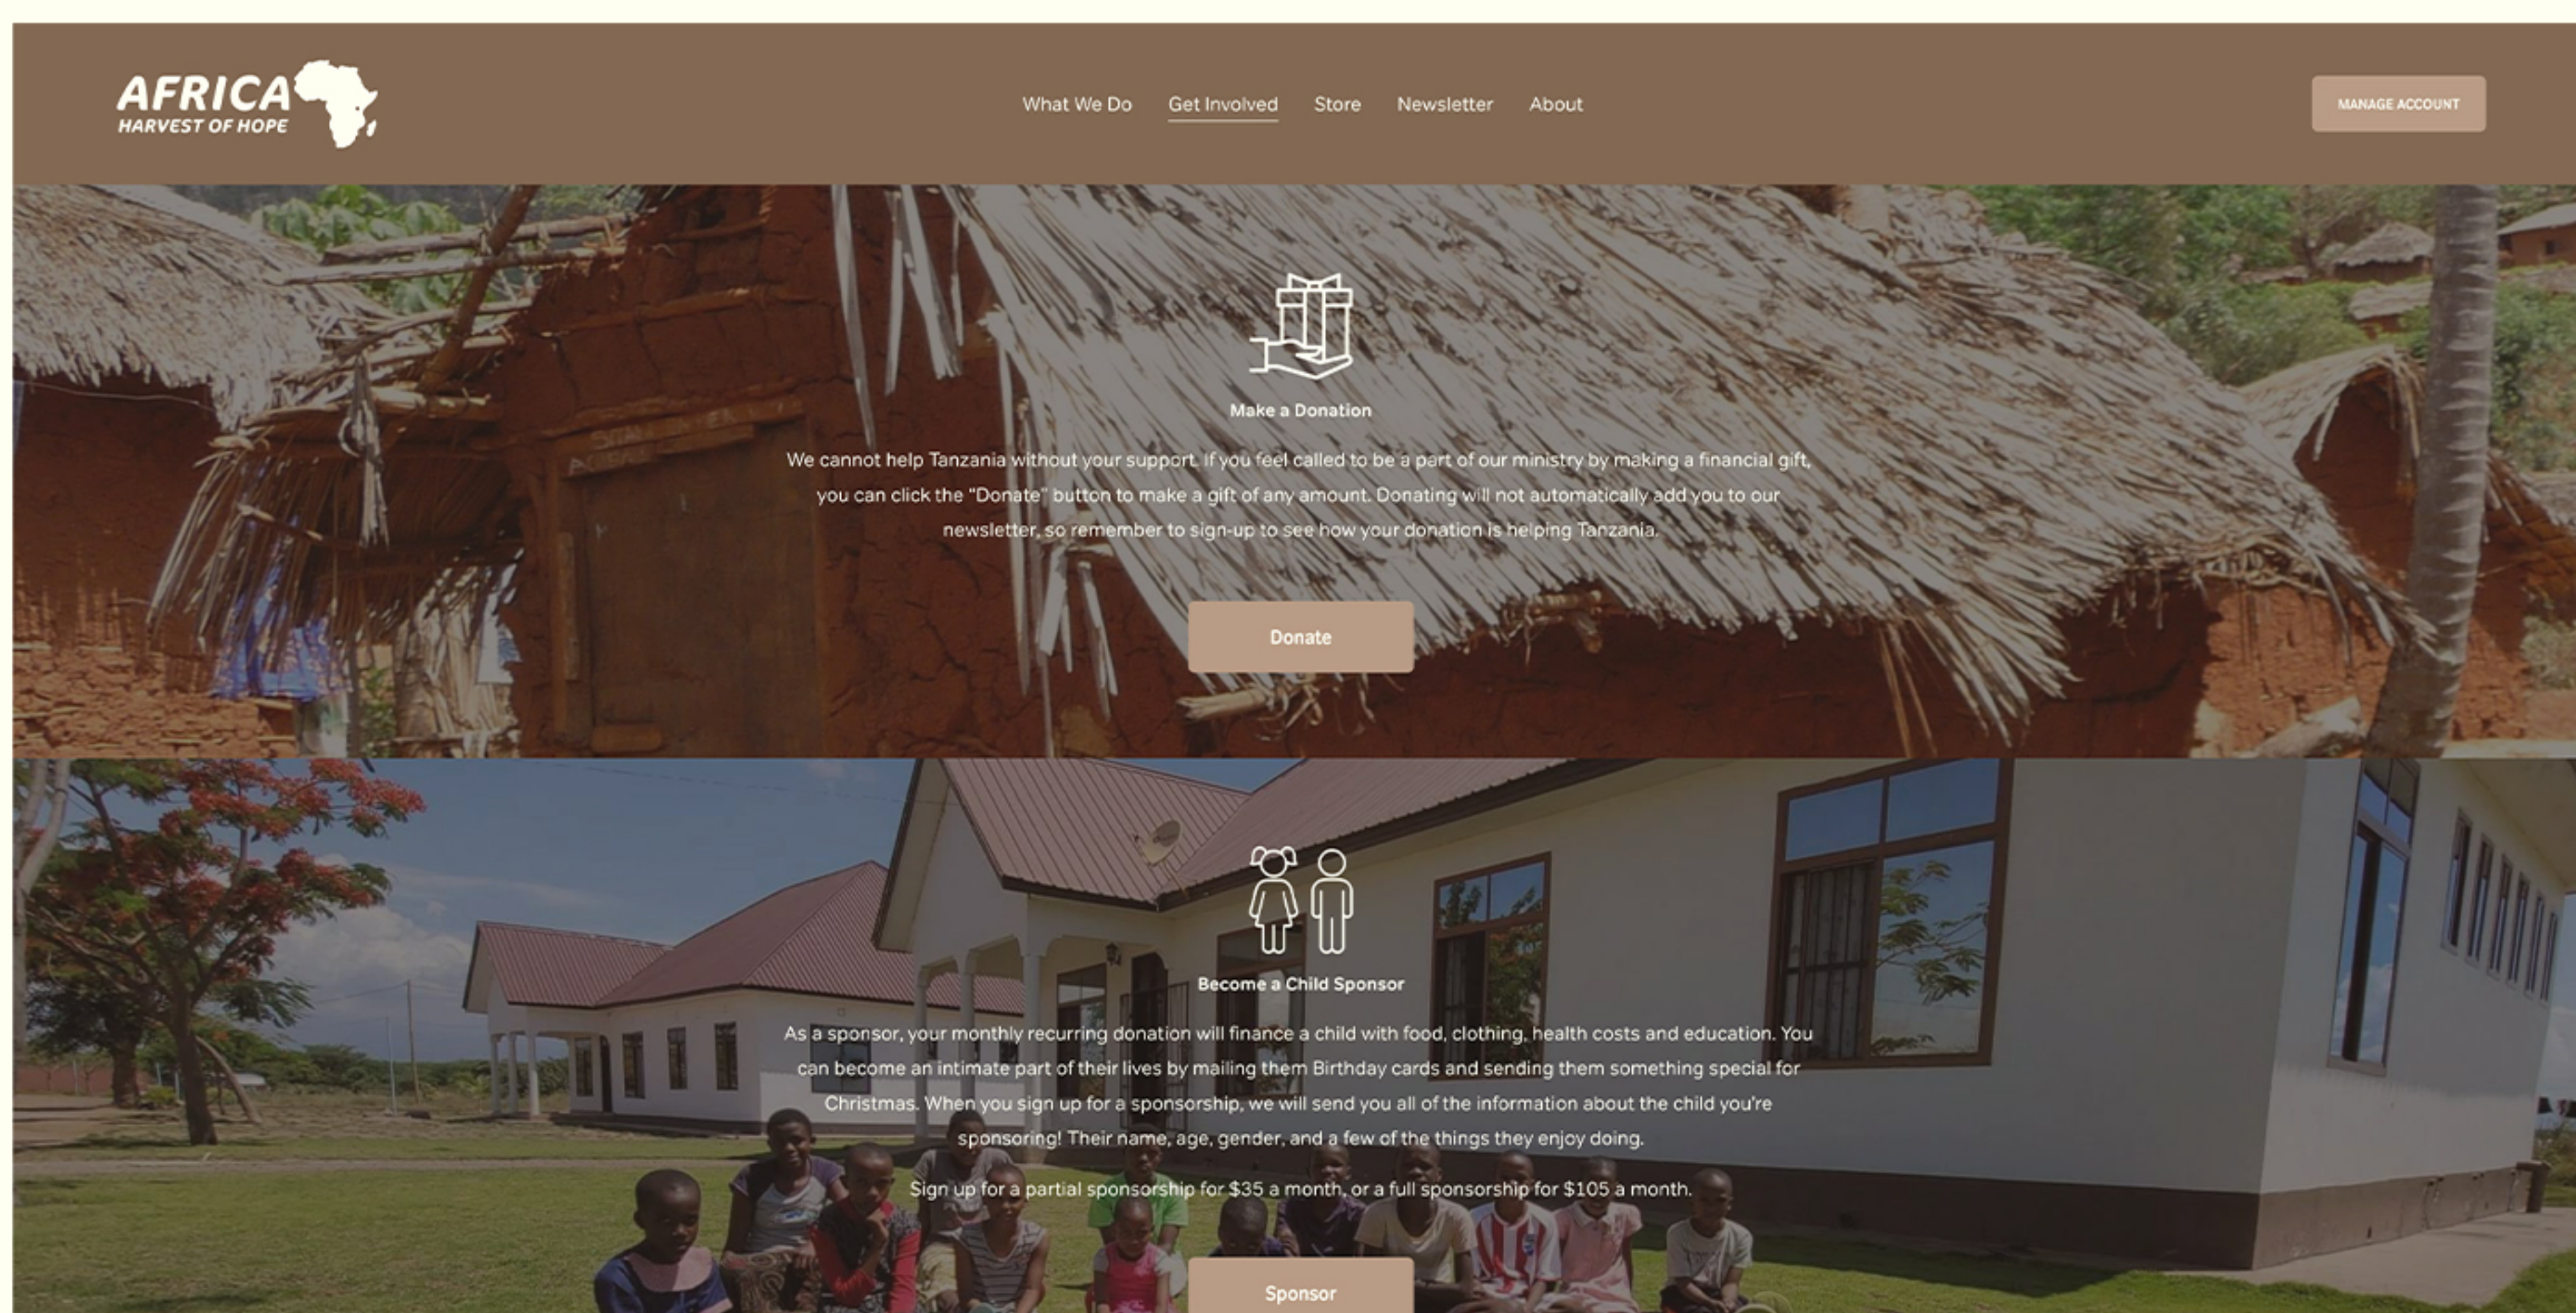

Once you are finished with any changes on your Kindful account, just make sure any changes are saved and close the web page.

Ministry Info

Anywhere on the website, you find on the header or footer, a tab labeled, "What We Do". This page includes all information about the ministry and work we are doing in Tanzania. Here you will find information about the orphans adopted into the AHOH homes, the children's home, the future pastors that are sponsored in bible college, the water wells being built, and the agriculture being harvested. Below all of this, you will find a live counter that will update over the years with a number that represents a completed total of each project.

Communication

Next to "What We Do", you will find "Get Involved". This page provides every link you will need for either donation type, or to get in contact with us. This page will be best for sharing with others so that they can easily get involved with the ministry. Aside you communicating with us, we also want to communicate with you and our newsletter page is the easiest place to find updates on the ministry. And I would guess you remember where it is, considering you are using right now!

The Ministry Team

Lastly, we have the “About” page. This eventually will be where you can become familiar with all of the faces in the ministry, and not just the ones here in the states but also the ones over in Tanzania. As this year moves along, we will be updating and adding all current staff and board members to this page. This page will also provide the backstory of the ministry and our mission statement and vision.

"Branding"

Before anything else, you probably noticed the new logos. Going forward, these logos will be the representation we go by for recognition. These new logo are to easily identify any content that we distribute and to also validate the legitimacy of said content. We are very excited to have them, and we hope you are as well!

That pretty much covers everything! I hope all of this information will serve you well in this new interface for the ministry. We are so truly thankful for all of you and your generous giving. Without it, none of the projects happening in Tanzania would be happening. Glory to God!

- Timothy
